## How Judge Elvis J. Stahr Stands in Ballard County

"Judge E. J. Stahr of Hickman, candidate for Circuit Judge, was in Ballard County this week in the interest of his candidacy. Although a stranger to most of our people when he announced his candidacy, Judge Stahr has developed considerable strength in this county and is gaining every day. He entered the campaign with the solid support of his home county, and since his announcement Hickman county has lined up for him which makes him a strong contender in the race. If he gains in Ballard county as fast in the next month as he has in the past he will have a majority in the county on August 6th.

"Judge Stahr is a Christian gentleman, an able jurist and would make the district a judge of whom the people would feel proud."—La Center Advance.

The foregoing statement is taken from the La Center Advance. It shows the trend of the sentiment in Ballard County in the choice of circuit judge. It is a hopeful sign to the friends of Judge Stahr. His candidacy gains momentum daily until it bids fair to approach the proportions of an avalanche ere the day of the primary. Fulton County is solid for the genial judge; it is only fair to both the candidate and Hickman County to say that it will favor him. Ballard County, as the above voluntary statement prophesies, is in the Stahr columns. It must as well be reckoned that he will carry strength in more than a mediocre degree in the other counties in the district.

Going on the theory that the outlook as outlined is correct, will give a feeling of satisfaction to all who believe in fairness. From a geographical point of view, we might call it simple justice that Judge Stahr be returned a winner. This is not said altogether in a spirit of levity. It is the truth and should carry the spirit of conviction to the fair minded. Added to this and other potent reasons which we might multiply, are the qualifications of Judge

Stahr. He is possessed of that rare attribute known as the judicial temperament, so much required and so sadly lacking in places of this kind all over the land. A just judge, one who can weigh and dispense justice in a wholly impartial manner is a jewel without price. It is next to criminal negligence to deny them the place they rightfully belong. Judge Stahr possesses these qualifications. We know it. Those who know him know it. If he had bitter enemies they could not deny it. This is the kind of a man we want on the bench; the kind the whole district should want on the bench, and finally—and we say it with a feeling of supreme confidence—the kind the district will have on the bench.

## FULTON COUNTY HEALTH MEETING

Laid Out Plans Tuesday for Season's Work in County.

A meeting of the Fulton County Health Department was held Tuesday at Williamson's Bridge.

In attendance were the members of the county health board and the two community nurses from Hickman and two from Fulton, together with a few others familiar with the health work in the county.

At the meeting plans were laid out for work through the season as to the health of the people of Fulton County. Modes of preventing disease and infections were discussed and the co-operation of all the physicians of Fulton and surrounding counties was asked.

The county health authorities state that they will be glad to co-operate and send specimens of water and furnish containers for blood tests, water, and smears for microscopic examination and help in any way. Any reports of sickness in any part of the county through physicians or others will be gladly received, and the health officials will exert every effort to find out the source and cause.

## MIDSUMMER MADNESS

## COMMERCIAL CLUB MEETING.

Members of the Hickman Commercial Club are urged to be present at a meeting of the club tonight, July 14th, at 7:30. Cards mailed to each member by Secretary Kennenber gave the date as Thursday, August 14. This was an error and should read Thursday, July 14. Special business will be discussed tonight, the promulgation of plans for the second Community Fair here being of chief interest. It is planned to make this even larger than last year's, which was a success in every way, and the co-operation of every member is expected.

## CANDIDATES TO SPEAK

All the county candidates will speak in the afternoon of the 22nd at the auditorium on Liberty Hill. District candidates may also be able to be present.

## TICKET FOR COUNCILMEN.

The following names were filed last Wednesday as candidates for the Democratic nominations for councilmen of the city of Hickman: R. L. Bradley, C. G. Schlenker, E. R. Ellison, E. R. Campbell, R. M. Isler and L. N. Gregory. This was the only ticket filed and they automatically receive the Democratic nomination in the primary. No one filed as candidate for the nomination for Mayor.

## TRENTON HERE FOR SERIES; PARIS SUNDAY

After taking two of a three-game series at Trenton, the locals returned last night for games with Trenton today, Friday and Saturday. The Hickman club during its absence has been strengthened through the addition of two infielders, two outfielders and a pitcher and a much changed team over the one seen here last week will take the field this afternoon. On Sunday the Paris club plays the locals here.

A. C. Owen leaves today for St. Louis to visit his sister, Mrs. Jno. Groh. From there he goes to San Diego, to embark as a missionary for China.

## VETS WOULD MEET HERE NEXT JULY

Invitation From Commercial Club Will Bring Next Convention to Hickman.

The annual convention of the veterinary surgeons of Kentucky, which was held at Danville, July 6, 7 and 8, came to a close Friday night after one of the largest and most successful conventions ever held by that body. A total of 191 graduate veterinarians attended the meeting, coming from every part of the state. Features of the session were luncheons tendered the convention by the Danville Commercial Club and the Elks Club. Dr. A. O. Longnecker, vice-president of the convention, attended from Hickman and reports a very enjoyable time.

Dr. Longnecker brings the news also that they are desirous of holding their next annual meeting, next July, in Hickman, Louisville, Hopkinsville, Lexington and other cities of the state are anxious to secure the convention, but the vets are reported as enthusiastic over the prospects of a trip to Hickman, owing to its proximity to Reelfoot Lake, where they hope to enjoy a barbecue and fish fry on the last day of the convention.

The other cities bidding for the convention are anxious to be selected as the next meeting place, but according to Dr. Longnecker a telegram of invitation from the Hickman Commercial Club to the February meeting in Owensboro will secure the convention for this city, because of the attraction of Reelfoot Lake, and since the vets have never held a convention in this part of the state.

If this gathering can be secured for Hickman, it will mean a great deal not only to the business men of the city, but to the farmers in this section. Addresses are made on topics of interest to live stock owners by some of the most eminent authorities on these subjects and everyone, especially the farmers, are invited to attend and hear these subjects discussed.

A building suitable for holding the meetings of the convention will have to be arranged for and hotel accommodations assured, but both of these, we are sure, may be secured without trouble.

Mitchell Wright and Dan Creason are in Dawson Springs.

### COL. ARMSTRONG'S COMMENT ON CENSUS REPORT OF KENTUCKY HORSES

The War Department is Interested in the Increase of Pure-Bred Horses

Country today of increasing number of pure-bred horses, particularly those of the thoroughbred type, on which the War Department must depend for its cavalry mounts in case of national emergency.

The above is a passage from the statement by Col. Frank S. Armstrong, Chief of the U. S. Army Remount Service, relative to the 1920 census of Kentucky horses.

The uneasiness of practical, patriotic men like Colonel Armstrong over the situation was amply justified by the lesson of the last great war, which so strikingly demonstrated the value of the horse in connection with modern warfare and revealed what would have become a pitiful shortage, had the Germans held out only a very few weeks longer than they did.

Nor must we forget the importance of breeding better horses more extensively in times of peace. Better bred horses mean better work horses; better prices for them, and a readier market.

The 1920 census figures indicate that Kentucky, as usual, will lead her sister states as to both number and class of horses, but even we are far from approaching what should be our quota in either count.

Colonel Armstrong's statement in full is as follows:

"Despite the very small amount of pure-bred stock, as compared with the total number of horses in the state, I believe that, when similar figures for the other states become available, a comparison of all will show that Kentucky still holds its rank as the foremost state in producing thoroughbreds."

"The relatively small percentage of thoroughbreds and of other classes of pure-bred stock included in the total number of horses in Kentucky is a general, and not a local, situation, and the other states probably will show even smaller percentages. The same conditions, I am told, prevail with live-stock other than horses, though probably not to the same extent as with the latter. The census report upholds and justifies the position taken by the American Remount Association that there is the utmost need in this country today of increasing the number of pure-bred horses, particularly those of the thoroughbred type, on which the War Department must depend for its cavalry mounts in case of national emergency, and which it met with great difficulty in procuring in sufficient numbers during the recent war. The national need of upbuilding and increasing American thoroughbred horses can not, in my opinion, be over-emphasized."

Heifer Buried in Haystack.  
Looking for a needle in a haystack now has its parallel in a heifer in a haystack. A yearling heifer, which had been lost for five weeks, was eventually found on the home farm, at Clay Centre, Kas. The animal had fallen between two piles of straw and was held captive. It had lived on straw and had only moisture gained from the stacks as water. Although very thin, it is believed the heifer will suffer no permanent effects from its experiences.—Montreal Family Herald.

FEED FOR WINTERING STEERS  
Methods Used and Results Obtained by Department of Agriculture at Lewisburg, W. Va.

(Prepared by the United States Department of Agriculture.)

Experiments to determine the most desirable rations and methods for wintering steers were continued last year at Lewisburg, W. Va., by the United States Department of Agriculture, co-operating with the state agricultural experiment station. Sixty two-year-old steers, averaging 927 pounds in weight, were divided into six lots of ten each and wintered for a period of 128 days, beginning December 23, 1919. The greatest gain—63 pounds—was made by the lot fed on a daily ration of 25 pounds of silage, 5.4 pounds of straw, and one pound of cottonseed meal. Other rations and gains were: Silage (40 pounds), gain, 79 pounds;

A Good Bunch of Steers.

silage (30 pounds) and cottonseed meal (one and a half pounds), gain, 67 pounds; silage (25 pounds) and mixed hay (eight pounds), gain, 63 pounds; mixed hay (20 pounds) and ear corn (two pounds), gain, 25 pounds; silage (30 pounds), gain 22 pounds.

The steers used in the wintering experiments at Lewisburg were grazed on pasture to determine the effect which the different rations fed and methods of wintering had on subsequent pasture gains.

Buy a pipe—  
and some P.A.

Get the joy that's due you!

We print it right here that if you don't know the "feel" and the friendship of a joy's jimmy pipe—**GO GET ONE!** And—get some Prince Albert and bang a howdy-do on the big smoke-gong!

For, Prince Albert's quality—flavor—coolness—fragrance—is in a class of its own! You never tasted such tobacco! Why—figure out what it alone means to your tongue and temper when we tell you that Prince Albert can't bite, can't parch! Our exclusive patented process fixes that!

Prince Albert is a revelation in a makin's cigarette! My, but how that delightful flavor makes a dent! And, how it does answer that hankering! Prince Albert rolls easy and stays put because it is crimped cut. And, say—oh, go on and get the papers or a pipe! Do it right now!

Prince Albert is sold in tippy red bags, tidy red tins, handsome pound and half pound tin humidors and in the pound crystal glass humidors with sponge moistener top.

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

To Make Friend of Toad.

The toad is not looked upon with any great amount of favor by the average person, and is generally thought of as being "ugly," while the old boyhood superstition that holds the lowly hopper as responsible for warts still lingers in many adult minds. In reality the toad is a peaceful, friendly little creature that can be trained in a very few minutes to be "pals" and after a week or so can be made as affectionate as a dog. They are cleaner than any furred animal and are exceedingly interesting as pets.

### MORE THAN HE COULD STAND

Dear Girl's Explanation of Her Deep Love Was Just a Trifle Too Strong.

"And do you really love me, Alice?" The girl gazed at him fearlessly, honestly, now that the sweet moment of surrender was over.

"Yes, dear, I do," she answered.

"Tell me of your love, then. I have told you of mine."

"I am glad you asked me, because I have often thought of it, and it frightened me. My love for you is like a mighty torrent of water that tumbles everything before it, that rushes on and on, ever powerful and strong. It is like a fire that threatens to consume, that burns fiercely for ever and ever, in spite of everything it could never be dampened or conquered. It is like a smoldering volcano that simmers beneath the surface, giving but faint indications of the force beneath. That is how I love you."

The lover who had sought for this was plainly surprised by her words. He made a few commonplace remarks and left her. Something told her that she would never see him again.

His business was that of casualty insurance and his theories of balance and risk simply could not stand up under the onslaught of so much fire, water and other destructive forces.—Chicago Daily News.

### To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c.

Just ask your druggist for HAYES' HEALING HONEY.

### Farms on Manhattan Island.

Some of the most valuable and productive real estate in the world is at the lower end of Manhattan Island but there are still patches of vacant unused land at the northern end. There are even, according to the Rural New Yorker, five farms left on the island, though the land devoted to this purpose is rapidly diminishing. Eleven years ago the number of farms was 85, while in 1900 there were 184 farms on the island.

FOR RENT—Six-room house, modern conveniences. See L. G. Callahan or John Choate. 3tc

### Before the Speech.

Some orators start with a rush, others begin quite slowly. A speaker we know has the habit of striding meditatively across the stage once or twice before he begins his address. On one occasion we heard a lively young fellow in front of us whisper to his girl with reference to the peripatetic gentleman on the platform: "That, I suppose, is his preamble."—Boston Transcript.

### Americans Spoke 56 Languages.

Fifty-six different languages were spoken at one time in America.

George Bird Grinnell, authority on the American Indian, reveals this in the March number of the Mentor Magazine. There were 280 different kinds of Indians speaking fifty-six distinct languages when the first white settlers came.

### Electric Light Star Guides Fliers.

A new form of illumination is that of London aviation terminals where an electric sign in the form of a star is sunk in the ground and covered with thick glass so that airplanes can land in it without damage. From point to point, the star is nearly a quarter of a mile in length.—Journal of Electricity.

### Oldest and Youngest President.

William Henry Harrison was the oldest man elected to the presidency and Theodore Roosevelt the youngest. Grant was the next youngest.

### Remarkably So.

A Miss Pike was married to a M. at Poughkeepsie, Wales, which is a small town in North Wales.

Thousands of people are taking WALLACE'S LIVERADE daily.

### Dream Evidently Impressed Him.

St. Paul's cathedral is cracking up a bit, but to the average intelligence it is at least as "safe as houses." A city man whose place of business is in the shadow of the cathedral is not so sure about that. He had a vivid dream in which he saw the vast building crumple up and demolish all the adjoining property in its fall. So disturbed was his mind as a result that he at once went to an underwriter and took out a policy which will cover his loss if the mighty edifice collapses!

## Illinois Central System Makes an Appeal to Shippers and Consignees

The amount paid out by the railroads on account of loss and damage to freight represents an economic waste burdensome alike to the railroads and the public. That this waste is substantial is shown by the following record of the loss and damage payments made by Class I roads:

1916	\$ 23,346,965
1917	35,079,757
1918	55,852,797
1919	104,597,174
1920	104,398,930

The Illinois Central System has borne its share of the economic waste on account of loss and damage to freight, as will be seen by examining these figures:

1916	\$ 655,293
1917	1,077,720
1918	1,653,706
1919	2,298,250
1920	2,745,099

The foregoing figures show the problem of loss and damage to freight has got out of hand. The Illinois Central System, in common with other railroads, is making a determined effort to reduce this drain upon its revenues. In this we need the painstaking co-operation of shippers and consignees. We, therefore, earnestly request that all shippers and receivers of freight co-operate with us to make this movement a success.

During May, 1921 68 per cent of the amount paid out for loss and damage to freight on the Illinois Central System was on carload shipments. We request carload shippers to insist upon being provided with cars suitable for the particular kind of freight they desire to ship and to see that shipments are properly braced and stowed in cars to prevent damage by shifting.

We request shippers of less-than-carload freight to comply with the rules and specifications of the Consolidated Classification Committee appointed by the Interstate Commerce Commission by selecting substantial containers in which to pack their goods for shipment, so that packages may not be crushed and contents damaged when loaded into cars with other freight. We request them to mark their packages plainly as to name of consignee and destination, removing all old marks that may appear on packages, and to furnish legible billing orders, so that billing may indicate clearly the name of consignee and destination. We also request them to deliver their goods at freight depots early in the day to avoid hurried loading and billing.

The president of a large wholesale house on the lines of the Illinois Central System was told by one of our agents that many packages were being sent back to his house on account of improper packing and addressing. He expressed great surprise and immediately called in his shipping clerk to ask him, in the presence of our agent, how many packages were being returned from the Illinois Central System daily. The shipping clerk replied: "I cannot tell you exactly, but a good many." As a result of this interview, the necessary corrective measures were immediately applied.

We request receivers of freight to observe the character of containers used by shippers and the manner in which goods are packed, crated and marked, particularly when goods are not received in good order, and to make these facts known to the shippers, appealing to them to use good containers on the ground that defective goods and delayed transportation service cause them a loss of trade. We also request receivers of freight to notify our representatives promptly of any concealed loss or damage to their shipments, in order that immediate investigation may be made. Some receivers of freight neglect to do this for days, and even weeks, after shipments have been received, rendering it difficult for the proper inspection and investigation to be made. This militates against good service.

Our purpose in presenting this problem to our patrons is to enable us to render a better service, by eliminating delay in the delivery of freight in good condition, and to assist in reducing the cost of transportation. By no means do we claim that all of the trouble is due to lack of care of the part of shippers and consignees. We are doing everything within our power to correct abuses for which we are responsible. We are putting forth our best efforts to render a service of satisfaction. By working closely with shippers' and receivers of freight, we believe it possible to bring the troublesome question of loss and damage under control, to the great advantage of shippers and receivers of freight, as well as to this railroad.

Constructive criticism and suggestions are invited.

C. H. MARKHAM,  
President, Illinois Central System.

### A CARD.

Hickman, Ky., July 12, 1921. After several friends have approached me in regard to certain statements heard by them, which statements were unmitigated falsehoods, I arrived at the conclusion there was being made a systematic circulation animating from one source. Especially so, since some of the comments were of a nature to also reflect up on Mr. Hannon Shaw, present candidate for nomination for Sheriff of Fulton County.

It has been ten years now since my last "school boy scrape," which troubles could best be described by this term: For as men judge things I do not believe there can be supported by proof any one act of mine to which the term dishonorable could be correctly applied. My activities are governed by morals inherited from my Scotch-Irish and English forbears of whom, family records show, I have no reason to be ashamed.

As an indication of character I gladly point to my credit record among the business men of Hickman. While I have been ill for some time, thank heaven my spirit has not suffered enough to prevent resisting attack. So I am conducting a quiet investigation and if the proof is sufficient to convince me of identity of instigator I will try to use patience enough to adjust the matter in our courts, but we know sometimes patience ceases to be a virtue.—M. B. Shaw.

### No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

### Ship and Sail under the Stars and Stripes

More than fifty freight and passenger services under the Stars and Stripes are ready for your use. In the harbors of strange lands where the Stars and Stripes had become but a memory, they are now found once more on regular schedule time. The grandsons of a generation dead and gone have seen the return of the Flag to all the seven seas.

Help to keep the Stars and Stripes in its rightful place, all over the world, by sailing and shipping on American owned and operated ships.

"We cannot sell successfully," said President Harding, "where we do not carry." American ships are now available. Be sure to use them whenever possible.

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me. I saw after taking some Cardui... that I was improving. The result was surprising. I felt like a different person."

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night, I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me... My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it."

Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui if troubled with womanly ailments. For sale everywhere. E.83
